

CERTO  
GLOBAL ADVISORY

# EXECUTIVE ADVISORY FOR COMPLEX INFRASTRUCTURE PROJECTS

Strategic advisory, project recovery,  
contract management and delivery support  
for energy, hydropower and international  
infrastructure projects.

---

STRATEGIC LEADERSHIP. GLOBAL IMPACT.

# WHO WE ARE

Certo Global Advisory is an independent boutique advisory firm specialising in the strategic management, recovery and successful delivery of complex infrastructure projects worldwide.

We support utilities, investors, governments, EPC contractors and financiers across the full project lifecycle in challenging and high-stake environments.

# CORE SERVICES

## EXECUTIVE PROJECT ADVISORY

High-level strategic advisory for infrastructure projects, from concept to commissioning and operations.

## PROJECT RECOVERY & STRATEGIC INTERVENTION

Turnaround leadership for distressed projects. Recovery plans, schedule re-baselining, and stakeholder alignment.

## CONTRACT & CLAIMS SUPPORT

FIDIC and international contracts management, claims avoidance, dispute mitigation and resolution.

## OWNER'S ENGINEER & DELIVERY COORDINATION

Owner's Engineer services, technical oversight, interface management and delivery assurance.

# GLOBAL EXPERIENCE

Proven track record delivering infrastructure projects in complex environments across the world.

# SELECTED PROJECTS

A selection of hydropower and water infrastructure projects delivered in complex international environments.

## SEBZOR HPP TAJIKISTAN

11 MW run-of-river hydropower plant.

Hydropower Sustainability Gold Certification.

Mountain environment with challenging geotechnical conditions.

## ROUNA 1 & SIRINUMU HPP PAPUA NEW GUINEA

Hydropower rehabilitation programme.

ADB-financed infrastructure project.

Construction supervision, recovery and commissioning support.

## KERRADA DAM ALGERIA

85 m high earthfill dam.

70 million m<sup>3</sup> reservoir.

Water transfer and pumping system infrastructure.

## FAIZABAD HPP AFGHANISTAN

8 MW hydropower plant.

Civil, hydraulic and electromechanical works.

Delivered under remote and challenging conditions.

# SELECTED PROJECTS

Large underground infrastructure, TBM works and water resource projects.

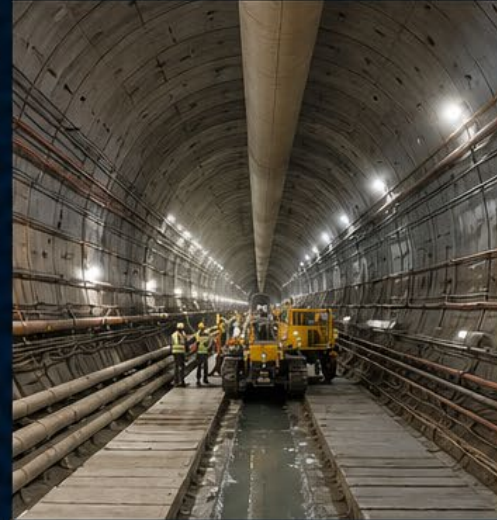

## TABELLOUT DAM ALGERIA

121 m RCC dam.  
14 km TBM water transfer tunnel.  
300 million m<sup>3</sup> annual water transfer capacity.

## TAGHARIST DAM ALGERIA

1.5 million m<sup>3</sup> earthfill dam.  
418 m diversion tunnel.  
Geotechnical investigations and project development.

## CERN HILUMI SWITZERLAND / FRANCE

High Luminosity LHC upgrade.  
Underground civil works.  
Tender preparation and procurement support.

## TURIN-LYON BASE TUNNEL ITALY / FRANCE

57.5 km railway tunnel project.  
European strategic infrastructure.  
Construction contracts and engineering support.

# SELECTED PROJECTS

Major transport, railway and industrial developments delivered in complex operational environments.

## CATANIA METRO ITALY

Underground stations and tunnels.

Ventilation shafts and urban excavation works.

Complex city-centre environment.

## MESSINA-PATTI RAILWAY ITALY

Railway doubling project.

Bridges, stations and civil infrastructure.

Strategic transport corridor in Southern Italy.

## ARZEW LNG ALGERIA

160,000 m<sup>3</sup> LNG storage tanks.

Large-scale refinery expansion.

Multidisciplinary coordination in a complex EPC environment.

## TEMPA ROSSA ITALY

Oil & Gas infrastructure project.

Storage tanks and plant facilities.

Strong environmental constraints management.

# LEADERSHIP & DELIVERY

Hands-on leadership. Results in complex environments.

- ✔ Multi-disciplinary team leadership and international stakeholder management
- ✔ Project governance, planning, and cost control
- ✔ Risk management and HSE leadership
- ✔ Complex interface management with governments, lenders, and contractors
- ✔ Technical excellence with a pragmatic approach to deliver results
